^{1.} Survey data covered logistics facilities for lease held by corporations investing in real estate and real estate development companies with a gross floor area of 5,000m² or more. The survey did not include logistics facilities owned by logistics companies and therefore did not cover all logistics facilities for lease having a gross floor area of 5,000m² or more. "Greater Tokyo Area" includes Tokyo, Chiba, Saitama and Kanagawa prefectures. "Greater Osaka Area" includes Osaka and Hyogo prefectures.

^{2. &}quot;New Supply" refers to the aggregate floor area of logistics facilities newly constructed and available for lease each year. "New Absorption" refers to the increase and decrease of occupied floor space based on subtracting the area of customers leaving a property from the area leased to new customers each year. Forecast are calculated by CBRE through analyzing the past data statistically and constructing the demand growth model based on the macro economic trends.

- 1. The above borrowing amounts are as of Nov. 30, 2014. We have entered into a commitment line agreement of JPY 8.0 bn with Sumitomo Mitsui Banking Corporation and The Bank of Tokyo-Mitsubishi UFJ Ltd.
- 2. The maturity date will be the immediately following business day in case such date falls on a day that is not a business day and the immediate preceding business day in case such date falls in the next calendar month.
- 3. These borrowings are at floating interest rates. We have entered into interest rate swap agreements to hedge the risks of interest rate volatility. We are showing the interest rates including the effect of the swaps (i.e., fixed interest rates).
- 4. The base interest rate refers to the Japanese yen TIBOR (Tokyo Interbank Offered Rate) for three-month deposits. For the current rate, please refer to the Japanese Bankers Association's website.

Broad Underrepresentation of Class A Stock – A Growth Opportunity

 Japanese Class-A logistics real estate business has significant potential to grow

Japan's Favorable Macroeconomic Environment

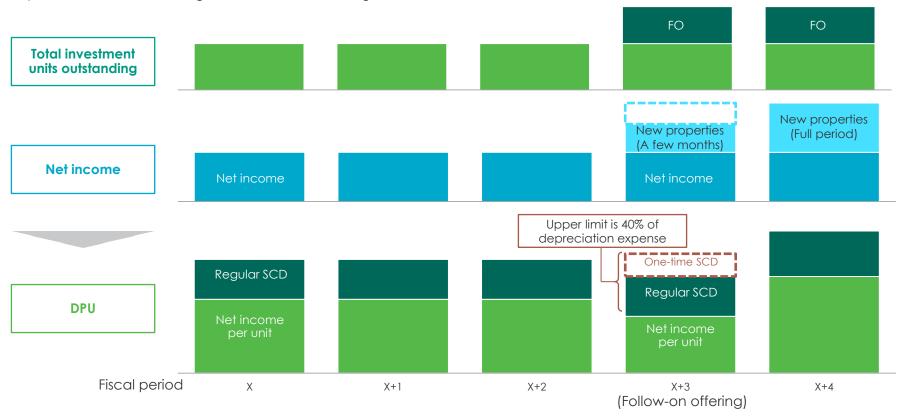

- Japanese economic recovery expected due to continued monetary policy of BOJ
- 2020 Olympic Games expected to drive economy in the longterm

One-Time Surplus Cash Distributions

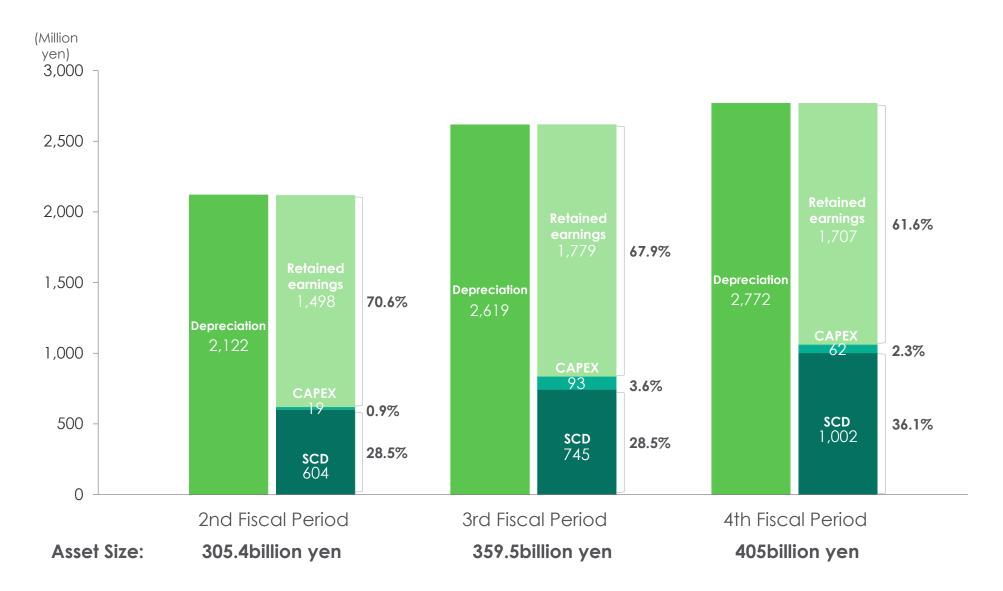

- For the time being, we expect to target a level of surplus cash distributions on an ongoing basis at an amount equivalent to approximately 30% of the depreciation expense for the relevant fiscal period
- In addition, we may make one-time surplus cash distributions to maintain the stability of our distributions per unit in the event that distributions
 per unit are expected to decline to a certain degree due to dilution from an increase in investment units or a substantial increase in costs as a
 result of our financing activities, such as the issuance of new investment units, including third-party allotments; the issuance of investment
 corporation bonds; or entering into additional borrowings
